## Which batteries do you need to declare if your company is established in Belgium?

Basic principle: The company that first puts the batteries on the Belgian market¹ declares them to Bebat.

<sup>&</sup>lt;sup>1</sup>With "put on the market," we refer not only to sales but also to renting, leasing and purchase for own use.

<sup>&</sup>lt;sup>2</sup>This means batteries sold separately as well as those included in or sold with a device, vehicle, bicycle...

<sup>&</sup>lt;sup>3</sup>Does your foreign supplier take on your obligation to declare to Bebat? This is the case if he / she

<sup>-</sup> states the environmental or administrative contribution to Bebat on the invoice, or

<sup>-</sup> is affiliated with Bebat (see list of participants on myBatbase) and confirms they they will take on your obligation to declare to Bebat.
